We extend our sincere appreciation for the collaboration between UKPACT on Carbon Pricing and Ministry of Finance of Republic of Indonesia on Technical Assistance of Carbon Pricing Policy in Indonesia. We hope this partnership support Indonesia's Commitment to Enhanced Nationally Determined Contribution and Greenhouse Gas Emission Reduction in National Development.

We are pleased to have produced five comprehensive reports. These reports elaborate international case studies and provide relevant analysis given Indonesian context. It also provides policy recommendations for Indonesia's policy and regulatory development.

In light of this, we respectfully seek the Directorate General of Tax consideration and approval to disseminate these reports by publishing them on the official website. We believe that making these documents publicly accessible will not only enhance policy outreach and stakeholder awareness but also reinforce the Ministry of Finance leadership in promoting collaborative and data-driven approaches to carbon pricing governance.

Should you agree to this proposal, we would be happy to provide the finalized versions of the reports and coordinate with the designated focal points to ensure alignment with the Directorate General of Tax publication protocols. Should you have any further inquiries, please kindly contact Dr. Titi Muswati Putranti, M.Si by email (titi.putranti@taxcentreu.org) or Whatsapp (+62 816 774 055). We thank you for your attention to this request.

Sincerely,

A handwritten signature in blue ink, appearing to read 'M. Johnson'.
