# **PRESS RELEASE**

No : 14/2016  
Date : March 8, 2016

---

## **Finance Minister Briefed 4551 Tax Auditors and Investigators for the 2016 Law Enforcement Year**

The Minister of Finance has instructed the Directorate General for Taxation (DGT) to improve the effectiveness of its law enforcement actions to yield a greater contribution to the nation's tax revenue collection effort. The Minister has also called for a revitalization of tax audits and criminal investigations with the goal to substantially improve the level of tax compliance and to generate a sustainable growth in tax revenue.

The Minister's remarks were delivered in a speech to the DGT's compliance and enforcement personnel attending a three-day national gathering in its head office in Jakarta from March 8 to March 11, 2016. The event is held to brief the staff about the Directorate's general policy and strategy regarding tax audits in 2016 where, according to the DGT's 2014-2019 Strategic Plan, the focus will be on compliance and enforcement efforts.

Taxes are the main source of Indonesia revenue and the DGT urges all Indonesian to take part in financing the state budget by doing their taxes honestly and accurately.

The DGT will continue to improve its services, as well as surveillance and law enforcement efforts, including working closely with other law enforcement agencies, to ensure the achievement of the assigned tax revenue collection target and to improve compliance and to enforce tax law for a better Indonesia because #PajakMilikBersama.
